

Introduced by Senator Campbell

February 22, 2005

An act to amend Section 42171 of the Public Resources Code, relating to solid waste.

LEGISLATIVE COUNSEL'S DIGEST

SB 1058, as introduced, Campbell. Recycling residue.

The California Integrated Waste Management Act of 1989 requires any hazardous material released or removed from a major appliance to be managed pursuant to the hazardous waste control laws. Existing law requires the California Integrated Waste Management Board to evaluate, as prescribed, the use of recycling residue, as defined, for use as solid waste landfill cover materials, as specified, or extenders for currently used cover material.

Existing law requires the results of that evaluation to be reported in the annual report the board files with the Legislature highlighting significant programs or actions undertaken by the board to implement the act during the prior calendar year.

This bill would eliminate the requirement that the results of the evaluation on the use of recycling residue be reported in the board's annual report to the Legislature.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 42171 of the Public Resources Code is
- 2 amended to read:
- 3 42171. The board shall evaluate the use of recycling residue
- 4 for use as solid waste landfill cover materials or for use as

1 extenders for currently used cover material. If used as daily cover
2 or as extenders to daily cover, recycling residues shall have all of
3 the physical characteristics required by regulations for cover
4 materials adopted pursuant to Section 43020. ~~The results of this~~
5 ~~evaluation shall be reported in the report required pursuant to~~
6 ~~Section 40507.~~
